Chaos, Solitons & Fractals back in business

After a period of quiescence following [some controversy](#), Elsevier's journal of nonlinear science *Chaos, Solitons & Fractals* (CS&F) has been re-launched.

In a [press release](#) posted earlier today the scholarly publisher announced that CS&F has recruited two new co-editors-in-chief and has refined its Aims and Scope -- going forward it will centre on the [interdisciplinary theme of complexity](#). The journal has also undergone some changes in the editorial structure and has a new look.

The two new co-editors-in-chief are Professor [Maurice Courbage](#) of Université Denis Diderot - Paris 7 and Professor [Paolo Grigolini](#) of the University of North Texas, USA

CS&F, says Elsevier, will soon be accepting submissions [here](#).

I hope to have more on this soon. (Now available [here](#))

In the meantime some background information is available here: [1](#), [2](#), [3](#) and [4](#).

And a longer piece on the journal can be found [here](#).
